

SCMC like Pepsi was born in the Carolinas!

The choice of a new generation is Pepsi; the choice for Cobra owners in the Carolinas is SCMC. It all started in a small town named Rock Hill where the weather is always hot and dry; it is also where flowers suffer a burning death due to the high humidity and scorching heat.

There aren't many Cobras in "The Rock", but with the city located just 20 minutes south of Charlotte NC, it has helped the club to grow to almost 200 members in the Carolinas alone. The Carolina Region boasts a pit of activity from 4 shows a year, two drag days, one open track event, and multiple cruises in the Smoky Mountains. We have karting events, dinner meets, and club cookouts year round.

It is an annual tradition that we all meet in Columbia, SC for the SC Meet.

(Jason Howard and Dewayne Brooks use their 1993 Cobras as a background for the chapter photo.)

This year we met for some BBQ at a favorite local spot. The food was great and the conversation was event better. The group discussed two events that we will put together this year, the SCMC Ghost tour and the Highway 11 cruise. The Ghost tour will be held in Charleston SC, while the Highway 11 Cruise will begin in Gaffney SC, and end at the GA/SC state line on I85.

The cruise will be held in August while the Ghost tour will be held in October. Both events will allow for members to get together and socialize while attending a "family orientated" club event.

Check the SCMC website for more details and information.
